## HANOVER W DRIVE NE ATLANTA

This beautiful kitchen has become the heart of the Kelly family's new home. Michael Bell of Inspirations Design Studio collaborated with Andrew and Amy Kelly of 1023 Construction to create this distinctive kitchen that provides professional functionality while also serving as the center for entertaining and family activities. The Kelly family needed a kitchen that would complement the beauty of their new home but withstand the daily rigors of young children. Large windows flood the kitchen with an abundance of natural light that continues through an oversized arched opening into the family room. This light is captured by the pearlized white finish on the flush-inset cabinetry and enhances the transitional design elements infused throughout the design. The mahogany island provides a modern twist to the design by framing the seating with unique deep dish ends that enhance the visual depth of the rich espresso finish.

### ABOUT THE KITCHEN

An extra-wide stainless hood flanked by tall cabinets with art niches frames the marble backsplash to create an elegant backdrop for the kitchen. An elegant Carrera marble on the island is accompanied by durable quartz countertops along the perimeter. The final touches of this transitional design include distinctive lighting fixtures, beautiful faucets and polished nickel hardware.

### INSPIRATIONS DESIGN STUDIO & 1023 CONSTRUCTION

Inspirations Design Studio is a leading home resource center and design studio that provides customers with premium lifestyle products utilizing inspirational design and offering the best possible appliances, cabinetry and closets at a fair price.

### ABOUT THE DESIGNER

Inspirations Design Studio strives to appeal to anyone who aspires to live a more fulfilling life in their home. Inspirations continues to grow through a commitment to understanding people's everyday needs and requirements, with the ability to transform "inspirations" into reality through premium products built to withstand use and time.

1023 Construction is a small, locally owned and operated company with over 40 years of combined experience in the home-building industry. Our philosophy is simple: to build each home as if it was our own. It is this guiding principle that informs every decision we make, and every partner we choose. At 1023 Construction, we hand-select our own team of architects, contractors and designers who share our vision; partners who are equally as passionate about building homes that stand the test of time.
